

Lake Cushman Firewise

Lake Cushman Firewise Address Marker Program

The Lake Cushman Firewise Council is promoting a program to install high quality address markers to support our local Fire Department.

The purpose of the address marker is to aid the Fire Department in finding your property in the case of an emergency. As you know in an emergency situation every second wasted is one that could have saved you or your loved ones. The nights are very dark in our neighborhoods.

The address markers are made of Carsonite and are 66" in length. We will include up to 4 numbers on both the front and back (where required). There is a reflective material that is put behind the numbers to allow them to be easily seen at night.

To cover our cost we request a \$30 donation for the installation of the markers on your property. Any additional money that you can donate will be greatly appreciated and will go to a very worthy cause in our community; spreading the word about the fire danger that exist in our neighborhood and what can be done to protect property.

Name _____

Address (Lake Cushman) _____

Div/Lot _____

Phone _____

Email _____

\$ Amount Enclosed _____ (\$30)

donations are welcome!
